Kind Words From Our Neighbor.

The Lexington Leader of Sunday had the following: "The Proceedings of the Tenth Kentucky State Conference of the Daughters of the American Revolution held at Paris October 11 and 12, 1906," is on the title page of a neat pamphlet in blue and white issued by the State D. A. R.

"It was published in Paris, where the conference was held [and from the press of the Bourbon News].

"The contents are a list of the State officers, a list of the State Chapters, numbering nineteen, and a report from each chapter.

"The printing is done on clear white paper, the cover is blue with the insignia of the order, a wheel and staff, in silver and the lettering enclosed in a border of leaves.

"The chapter work is quite interesting and gives evidence that the D. A. R. work is being kept up with ardor all over the State.

"The Lexington and Bryan Station chapters, both of this city, make an excellent showing with the others in the reports and give lists of officers among the prominent women of Lexington.

"The books have been sent to all the regents of the chapters for distribution to the members."

Denounces the Governor.

The Breathitt News, published in Jackson, has the following regarding the Hargis trial:

The people of Breathitt county have shed many indignities at the hands of Beckham and his henchmen during the past few years, but the farce that has been enacted here during the past week in the name of the court, has, we think, far exceeded anything that has ever happened in Kentucky, or any other civilized country.

Such things as have happened here during this week under the guise of a court of justice cannot properly be described in print. In our limited experience and observation this is the first court we have ever seen where the Commonwealth had absolutely no rights at all. We doubt that if in the history of Kentucky any instance can be found where a Commonwealth's Attorney was refused the right to have an indictment that he had written quashed when he stated to the court that the indictment did not conform to the facts or the proof to be presented.

The law is plain that the jury wheel or drum, yet this court refused this to be done and declared that he would have a jury selected from bystanders, and then removed the Sheriff, whom the people of this county elected, without sufficient cause being shown for his removal, and declared that he himself would appoint a special bailiff to summon the jury, and announced that he did not know any of the people of Breathitt county, and that he found that the people were divided and everybody lined up on one side or the other.

All these things and more were done over the vigorous protests of the Commonwealth's Attorney and his co-counsel.

Other indignities might have been committed had not the court been stopped in its mad career by a writ of prohibition issued by the Court of Appeals of Kentucky citing the Judge to appear at Frankfort next Tuesday to give an account of his actions.

Our people are as law abiding and as good citizens as any in the State, when they have a chance, and they have endured more under the forms of law than any other people would have stood for. Such proceedings as have been enacted here this week and on other occasions, under the forms of law tend to make our people lose respect for the courts where they wish to go for and have a right to expect redress for grievances.

Our people do not want anybody persecuted or any innocent man punished. All they want is that justice be done—that and nothing more.

The Brownsville Incident.

President Roosevelt yesterday sent to Congress his special message regarding the Brownsville incident, which gives additional evidence collected by Assistant Attorney General Purdy and Major Blockson, who were sent to Texas by the President to investigate the affair.

The President submitted with his message various exhibits bearing on the affair. The President declares that evidence is positive that the outrage of August 1 were committed by some of the colored troops dismissed, and that some or all of the members of the three companies of the Twenty-fifth Infantry have knowledge of the deed and shielded the guilty ones.

The negro troops are referred to by the President as "midnight assassins," and he declares very few if any soldiers who were dismissed "without honor" could have been ignorant of what occurred.

That part of the order which bars the soldiers from all civil employment under the government is revoked by the President. This cause, the President says, is lacking in validity. The discharged troops, however, will be forever barred from re-enlistment in the army or navy, and last of this the President says that "There is no doubt of my constitutional and legal powers."

Rain Damages Hemp Crop.

Considerable damage has been done to the hemp crop of the county by the rain that has fallen almost continuously since the first of January. At the beginning of the new year the hemp crop was considered fully rotted and farmers began taking it off the ground and placing it in shocks ready for the break.

The rains set in with the result that the hemp still remains on the ground, and is getting too much of the rotting process, weakening the fiber, which will result in a much larger per cent of tow when the hemp is broken out, as well as to render the quality of the article much inferior. Some few fields that have been placed in the shock, were blown down Friday night by the terrific wind and rain storm that passed over the county. Colonel Dan Peed, the well-known tobacco buyer, sounded an alarm Saturday by notifying the farmers who were in attendance at the tobacco meeting that tobacco now in bulk should be carefully watched as the warm, rainy weather is liable to cause it to rot.
